

**Technical Assistance Guidance (TAG)
Eligible Training Providers (ETPs)**

TAG 06-2022

Issued Date: **Monday, March 28, 2022**

Subject:

Data Collection and Reporting Requirements for ETPs.
Expiration of the Workforce Innovation and Opportunity Act (WIOA) waiver of the obligation for ETP to report performance data on All Students in a Program of Study.

Purpose

This guidance is issued to provide further information on the responsibility for ETPs to report performance data on all students within a given program of study.

Background

Sections 116 and 122 of WIOA and its associated regulations codified under 20 CFR Part 677.230 and Part 680.400 through 680.530 require ETPs and states to collect and report performance data for all both WIOA-funded and non-WIOA-funded students for each program of study listed on the approved ETPL.

For the past few years, the Department of Labor (DOL) and the Employment and Training Administration (ETA) waived these requirements for Nevada, thus allowing the State of Nevada to report data on WIOA-funded students only. With the issuance of Training and Employment Notice (TEN) 7-21 on September 23, 2021, DOL/ETA reminds Nevada that the waiver of the obligation of ETPs to report performance data on all students in a training program has expired. Therefore, consistent to established requirements all ETPs are now required to provide all required WIOA performance information to Workforce Connections.

Workforce Connections recognizes that the collection and reporting of data on all students creates additional reporting and record retention responsibilities for ETPs; nevertheless, the public workforce development system deserves quality training programs that have proven success and positive outcomes.
