Interior Designer

Learning about careers in  
creative industries

## A note for parents and teachers ...

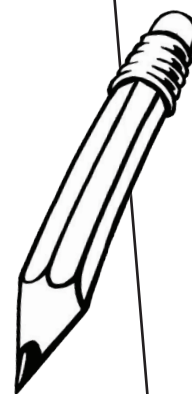

As adults, we know that a good job is essential to providing for our families. So, it's never too early for youth to start imagining their future.

With a constant increase in demand for creative industries, this presents many career opportunities. These include software developers, architects, graphic designers, web developers, and a variety of engineers. All of these are rewarding and well-paying careers..

Southern Nevada's Industry Sector Partnership for Creative Industries collaborated on this activity book to highlight a few of the occupations that will be in-demand in Nevada over the next decade. With your permission, youth can learn more about these and other good careers at:

[www.NVMyFuture.org](http://www.NVMyFuture.org)

Workforce Connections is committed to community partnerships that help youth achieve the academic and vocational skills necessary to successfully enter the workforce and confidently compete in the global economy.

## Creative Industries Word Search
